NEXFORD ORGANIZATION STRUCTURE

BACKGROUND

We Nxford Security Ltd, a leading security service provider & consultant, provide a comprehensive range of security services for a wide variety of clients, incorporating both property, information and personal protection services. The Company is guided by a strong vision, mission and values all aimed at meeting and satisfying our customer's needs and making Nxford Security Ltd the company of choice. We have made significant investment in technology to ensure both our internal and external processes deliver outstanding customer service and real time information.

OUR PRODUCTS & SERVICES

Guarding Residential & Commercial

Nexford Security Ltd has established a well- defined recruitment, training and development policy that ensure only the best guards are employed.

Trained Dogs and Dog Handlers:

Trained dogs are an integral part of our security services. Our Security dog is managed by a professional dog trainer assisted by a dog master and several kennel attendants. At the kennel, the breeding of quality guard dogs is done giving us an excellent stock of current and future dogs.

Construction Site Security

Nexford Security Ltd has established a well trained security that ensure construction site are safe and secure.

Events Management

Nexford Security Ltd provides security management in events. This involves formulating and implementing security strategies e.g. protection of delegates, guests, service providers, sponsors, media and goods from unforeseen circumstances.

Alarm Back-up & Response Services

Nexford Security Ltd's alarm back-up system provide the highest level of reliability as the transmitter systems installed carry out a self-test very 24 hours and report the results to the central system in our control room.

CCTV Systems

Nexford Security Ltd provides fully integrated security solutions such as CCTV's that can easily be managed from a single platform. We protect everything from small offices and schools to large multi-national organization and high security government facilities. We have the capability to offer a wide range of products from traditional cameras to digital recording and remote surveillance.

VIP Protection

This is a service provided to important individuals who by virtue of rank or status can afford privileged handling of safety and security. The VIP service helps one avoid unwanted attention. VIPs have different tastes, requirements and sensitivities that will determine their service requirements.

We provide the following VIP services:

1. Close Protection Officer

- a). Armed or unarmed
- b). Unarmed combat trained officer.

2. Security Driver

- a. Defensive driving
- b. Trained in security driving
- c. First aid certified

3. Police Escort

- a. Uniformed or plain cloth
- b. Armed

4. Situation Reports

- a. Written security situation reports for the locals to be visited
- b. Report in advance of visit
- c. Report at the beginning of day

5. Itinerary Planning

- a. Planned itinerary in advance for VIP's

Electric Fencing

Our State of the art fences provide a first-line deterrent and earliest detection of an intrusion for our customers and have a life expectancy of up to 5 years. The energizers can incorporate solar power sources in line with our green energy policy and the prevailing power situation.

Nexford Security Ltd Car Track System

Africa Security car track system is application software that tracks vehicle movements.

First Aid

This is the initial assistance given to a casualty who is suddenly taken ill or is injured, using readily available materials before handing them over to more qualified medical personnel. A simple First Aid procedure may go a long way in saving a life, limiting a condition from becoming worse and promoting a casualty's recovery.

Africa Security offers first aid training in the following areas:

- Incident management
- Casualty management
- Unconscious casualty management
- Cardio-pulmonary Resuscitation (CPR)
- Wounds and Bleeding © Injuries to Bones muscles and soft tissue
- Extremes of Temperature

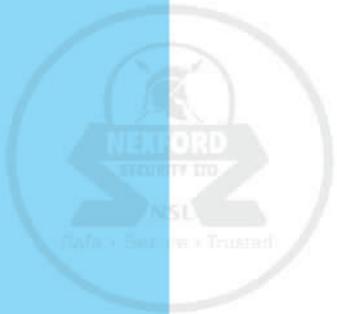

Disaster Management

Adequate preparation and training in disaster management is an area we specialize in. Our disaster management focuses on activities that would minimize losses arising out of disasters including incident command systems, evacuation, emergency drills and after action reviews.

Fire Fighting

Most disasters end up in fire. This is especially so when buildings and explosives are involved. Kitchens are potential fire hazards especially in restaurants and hotels since there are Liquid Petroleum Gases (LPGs) and different oils for cooking. We sensitize our customers on how to suppress and escape from fire which may cause unnecessary fatalities and damages. Key areas include; Introduction to fire, types of fires, fire extinguishers (including blankets, and fire buckets), How to suppress fire, Fire Evacuation Procedures, Fire Drills and Fire Equipment Inspections

Front Office & Customer care

Mobile Response Team

As front-line representatives of your company, our guards wear a high quality uniform and take pride in their appearance. By paying above the industry average, we can guarantee above average service. As part of our recruitment process we check the backgrounds of all our potential security staff, going back as far as 5 years.

STAFF RECRUITMENT

With regards to staff recruitment and placement a company policy places a strong emphasis on the critical employer aspect like:

1. Suitable relevant educational standard and experience (Minimum of O level education)
2. Appropriate age
3. Physical fitness
4. Security clearances (SAPS).
5. Possession of Security Training Certificates.
6. Staff must be able to read, write and communicate in English and other official languages that are commonly used in the area of operations.
